BLONDO SPORT FEATURES

Blondo
Sport

AQUAPROTECT®
WATERPROOF LEATHER

All Blondo footwear is authenticated by AquaProtect seal which certifies the use of high quality waterproof leathers and materials with seal-seamed construction. This process provides a superior protection against water infiltration and the harmful effects of calcium/salt.

3M

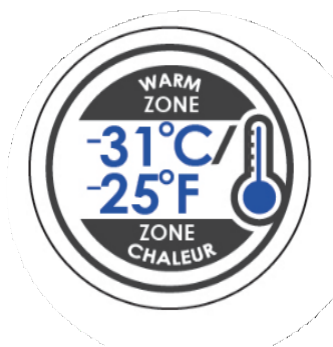

Thinsulate™
INSULATION

Developed by 3M, Thinsulate™ Isolation is made of unique microfibers which captures the air and reflects body heat twice as much as any other insulating fiber. Thinsulate™ absorbs less than 1 % of its water weight and it preserves its insulating qualities even in moisture.

WARM ZONE

The warm zone serves as a general guide to help you choose the best product that meets your specific needs. Please keep in mind that this guide may be influenced by several factors such as your fitness level, your activity level, the humidity level and the exposure time.

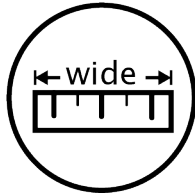

REMOVABLE ANTI- BACTERIAL ACTIVE CARBON INSOLE

This removable anti-bacterial active carbon insole is designed to provide unparalleled comfort and additional cold protection to keep your feet warm. A gel pad at the heel adds extra cushioning for all-day comfort. Very effective against foot odors, this insole may also be removed to insert orthotics.

BLONDO ADDED FEATURES

Wide Fit

Genuine Shearling

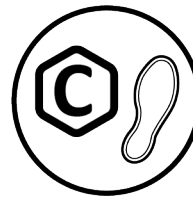

Selected Blondo styles have been designed with genuine shearling. This natural fur is renowned for its superior protection against the cold and outstanding comfort.

Blown Rubber Outsole

Selected Blondo styles are developed with a blown rubber outsole as it has extremely lightweight properties.

Removable Molded Recycled Active Carbon Insole

Selected Blondo styles are crafted with a removable molded recycled active carbon insole which provides additional comfort and insulation. This insole provides moisture absorption and is effective against odours.

Removable Memory Foam Insole

Selected Blondo styles are crafted with a removable insole made of pressure relieving 10 mm memory foam, which conforms to the natural curves of your feet. This insole also has a ribbed anti-slip gel bottom which will help it remain firmly in place.
