POSITIONING YOU FOR LIFE

All Golden lift chairs are Class II Medical Devices.

Rich Golden pictured with his children, third generation Golden Team Members! Pictured left to right: Rich Jr., Alyssa, Rich & Mike.

### A MESSAGE FROM RICH GOLDEN, CEO

Since 1985, we have produced power lift and reclining chairs that push the boundaries of expectation. My father, Robert Golden, Sr. and his friend, Fred Kiwak, had a shared vision to build the most advanced, comprehensive, and comfortable chairs ever created to serve the medical market with a mission to "Build It Right The First Time," a commitment that still holds true today.

Learn about our patented positioning options and seating technology to understand why you will have the best comfort experience of your life! MaxiComfort® Positioning created the original Zero Gravity lift recliner. Our Twilight Tilt Technology was the first to offer the ability to elevate your legs above the heart while evenly distributing bodyweight between the seat and back.

Golden is the only lift chair manufacturer to offer a Straight Lift option designed to allow for other safe transfer options with the aid of a caregiver by lifting straight up instead of tilting forward when getting in and out of the chair. Plus, our SmartTek® Diagnostic System, standard on all Golden recliners, uses LED lights to help diagnose the electrical health of the chair.

We are proud to manufacture America's favorite power lift recliners – for your family, and ours.

# Golden Quality

GOLDEN'S POWER LIFT RECLINERS ARE AMERICA'S #1 BRAND!

- 1 **STRONGEST IN THE INDUSTRY**
  - Northern maple or a blend of furniture grade hardwood frame on all stress points
  - Double doweled at stress points
  - Reinforced mitre blocks
  - Stapled and glued
- 2 **SUPER SUPPORTIVE**  
Hand-blown, overstuffed, conjugated microfiber dacron fill
- 3 **POCKETED COIL SEATING**  
(Standard on most models.)
- 4 **LONG LASTING SEAT SPRINGS**  
5 standard, 8-gauge springs
- 5 **STRONG & LONG LASTING**  
9-gauge steel scissor mechanism
- 6 **STABILITY & SUPPORT**  
Adjustable anti-skid feet, rear landing legs\*  
(\*Available on select models.)

## OUR VISION...

To build the most innovative and comfortable products that put you and your family's lives in motion.

All Golden lift chairs are Class I Medical Devices.

# Golden Comfort

Golden's patented "Comfort Zones" have revolutionized how consumers think about comfort positioning. These are exclusive, adjustable and supportive zones to offer a stress-free recline experience. Take a test drive and feel how you'll increase your body's wellness and optimize the feeling of comfort.

Zone 1 helps provide ergonomic relief to the muscles and joints in your lower body with the four-way motion of the seat and adjustable footrest.

Zone 2 allows stress and strain to be released from your upper body by adjusting the backrest to suit your needs. This combined with Zone 1 creates our PATENTED MaxiComfort® Positioning.

Zone 3 helps relieve strain or tension with an adjustable headrest that supports the natural positioning of your neck, shoulders and spine.

Zone 4 offers adjustable lumbar support to help take pressure off your spine while giving your lower back muscles a chance to rest and rejuvenate.

Zone 5 helps to encourage circulation, release muscle tension and alleviate joint pain with the first-of-its-kind, PATENTED Twilight Tilt Technology. Experience unparalleled comfort and a sensation of weightlessness like never before!

*Comfort Zone*™  
by GOLDEN

Class I Medical Devices designed by Golden Technologies are intended to assist persons with physical disabilities.

### What is Nirvana™ Swedish Air Massage?

Nirvana delivers a gentle, full-body soft tissue Swedish massage with ten air chambers that target over 500 square inches of your body. It features separate massage and heat controls for your lumbar, glutes, and hamstrings plus two modes for soothing or stretching massage, allowing you to adjust and customize your comfort level for total mind and body wellness.

### See It. Feel It. Believe It.

Visit your local authorized retailer for a live demo of Cloud+.  
This patented technology is available ONLY on Golden Powered Lift Recliners.

### What is HeatWave™ Technology?

This innovative technology uses invisible Far Infrared light waves to deliver therapeutic warmth from your shoulders to your feet, that penetrates up to three inches into body tissue. It can help reduce inflammation, relieve joint pain, alleviate muscle tension, improve circulation, and support injury recovery, all without harmful Ultraviolet light waves.

RELAXES | ELONGATES | SOOTHES

### Healthy Benefits of Nirvana™ Swedish Air Massage with HeatWave™ Technology

The soothing Swedish massage and deep penetrating Far Infrared heat work together to relax and elongate muscles, relieving stiffness that can result from prolonged sitting. This combination of therapies will transport your mind and body into a state of bliss, restoring your body from the inside out. Using Nirvana and HeatWave Technologies together promotes deeper relaxation, a more restful sleep, and helps the body to have a calmer response to stress throughout your busy days.

Power Headrest

Power Lumbar

The Rejuvenate position resulted in a **22% reduction** in pressure compared to the seated position.

Sitting for long periods of time can often cause discomfort due to the constant pressure on your lower body. With the simple touch of a button, redistribute your weight and give your lower body a chance to rejuvenate.

Our Patented Rejuvenate Position:

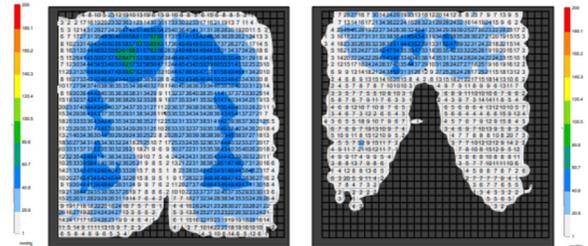

- Shifts pressure from your seat to your back
- Relieves any pressure points from prolonged sitting
- Encourages circulation, allowing your lower body to rest and repair

### Power Lift Recliners with Patented Twilight Technology in Rejuvenate Position

# Golden Offers The Highest Quality Recliner Fabrics

Renowned as the world's leading breathable performance fabrics, Brisa® and Brisa® Distressed offer unparalleled comfort and durability. These fabrics feature a supple feel, a softly textured look, and an inherent ventilation system that promotes air circulation. Brisa and Brisa Distressed are meticulously designed to exceed expectations.

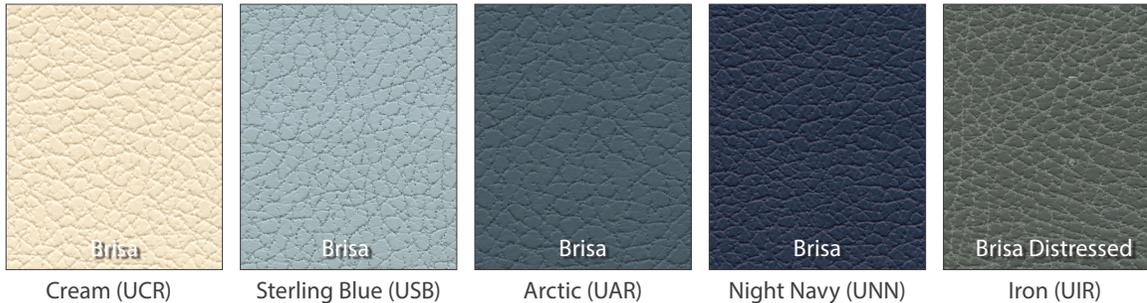

## Elements of Brisa

A perfectly curated palette to bring the beauty of the outdoors in.

**Earth** — Rich, organic shades celebrate our love for natural materials and ground us.

**Water** — Timeless shades that represent the depths found in the open seas.

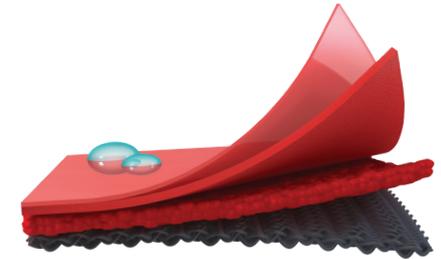

**Wind** — From a warm, calming breeze, to a crisp gentle air, wind symbolizes renewal and healing.

NOTE: Please view all Golden Fabrics in person for accuracy.

\*Upcharge applies on Brisa® fabric.

## Our Luxurious Brisa® Fabric is Crafted with Takumi™ Technology

Taking its meaning from the Japanese word 'artisan', this innovative process engineers mastered performance directly into each layer - combining them into one unified system that assures enduring bond strength and longevity.

### Surface Layer

Adds extreme durability with ease of care and low maintenance. Protects from stains. Liquid and moisture repellent.

### Topskin Layer

Unique polycarbonate resins, engineered for maximum hydrolysis resistance. Quality pigments for lasting color vibrancy.

### Microfoam Layer

Polycarbonate foam structure for added comfort. High moisture transfer provides ultimate thermal comfort for body climate regulation.

### Substrate

Reinforced rayon fibers, or blends, provide dimensional stability. Superior foundation delivers high performance and upholstery ease.
